

# What Investment is Right For Me?

Your 2025 Guide to Finding Your Best Strategy

# 1. START WITH WHY! YOUR PERSONAL INVESTMENT GOALS

- A. Are you growing your money for retirement, a big purchase, or passive income?
- B. Do you need quick returns, long-term growth, or capital protection?
- C. Your “why” determines your risk, time horizon and strategy!

Checklist:

- Growth
- Income
- Wealth preservation
- Diversification
- Learning and skill-building

# 2. KNOW YOUR INVESTMENT PERSONALITY

- A. How do you react to risk and uncertainty?
- B. Calm during big swings, or do volatility and losses stress you out?
- C. Are you hands-on like analysis and taking your own trades or hands-off prefer automation?

# 3. UNDERSTAND THE MAIN INVESTMENT STYLES

- A. Conservative:
  - Priority: capital protection, steady gains;
  - Typical approach: low-risk FX strategies, strict drawdown controls, minimal leverage.
- B. Balanced:
  - Mix of growth and protection, can accept some drawdowns for bigger rewards.
  - Typical approach: moderate risk settings, position sizing, selective use of leverage.
- C. Adventurous:
  - Focus: high growth, okay with bigger swings and higher drawdowns.
  - Typical approach: higher risk levels, more volatility, but strict rules still apply.

# 4. MISTAKES TO AVOID

1. Chasing “hot” tips that don’t fit your goals;
2. Investing without a clear risk plan;
3. Constantly changing strategy based on emotions;
4. Focusing only on returns, forgetting about risk.

## 5. NEXT STEPS CHECKLIST

1. Define your investment goal and time horizon;
2. Take the RiseOn risk assessment;
3. Choose your preferred strategy manual, signals, automation;
4. Start with a demo or trial;
5. Track your first month of results;
6. Adjust only if your goals and situation change.
